

President's Update

Summer has begun and most of our summer residents have arrived and are very pleased to see the Dam construction completed and water back in our beautiful lake.

Please join me in thanking our POA employees for the wonderful job they did during the severe winter, with extremely cold weather accompanied by many snows and a devastating ice storm. Clean up of debris has been ongoing and will continue for the remainder of the summer. Special note to POA property owners: Those of you who have not yet arrived or who are not going to be here soon need to make arrangements to have the downed limbs and trees removed from your property as soon as possible.

I would like to encourage everyone to attend the monthly Information Meetings at the Recreation Complex. This is a great way to stay informed of past and future events at Land Harbor. Your continued support is appreciated.

*Chuck Abrams, President
Board of Directors*
